Family Night

ENCOURAGING ACADEMIC GOALS TEAMS

'Better Together' means partnering with parents, guardians, families, and the community to increase academic achievement for our students. Our family nights are a great place to do this! This year, Cheatham students are working to increase reading fluency. Our first family night encouraged YOU to join our Academic Goal Team and support this schoolwide goal at home. We had over 100 families answer the call. The night included opportunities for teachers to share data and goals, model simple ways to support reading at home, and provide families with the necessary materials. Working together will help our students be successful, so let's start reading!

New Student Orientation

In an effort to ensure new students have a successful transition to Cheatham, we have introduced a routine for 5th-8th graders who enroll at Cheatham. Every other half day, students new to our school in these grades will participate in an orientation that helps them become familiar with the staff and expectations. Last month, students listened to a presentation from the Mrs. Pashley and Mrs. Tait, toured the school, and met staff such as our resource officer, Student Success Associates, school counselor, health associate, and librarian. We understand that moving schools at this age can be difficult. We hope this orientation communicates our support as they make this transition and become part of the Cheatham community.

Technology Updates

Last year, we welcomed Mr. Ramon to Cheatham as a Guest Teacher. However, this year he has taken on the new role as the technology teacher and is already generating an exciting buzz on campus. With an extensive background in technology, Mr. Ramon is helping students rebuild cell phones, repair broken school headphones, and even introducing AR animals in the classroom. We are thrilled to have him join us and anticipate many more fun projects.

Building Community Partners

A huge thank you to our community partners who helped support a successful start to the new school year. We couldn't do it without you!
